Paraplegia **31** (1993) 818–824 © 1993 International Medical Society of Paraplegia

Indexes

Subject Index

Ambulation
In patients with myelomeningocele: a study of 1500 patients, 28
Physiological benefits of paraplegic orthotically aided walking, 111
The role of FES in the rehabilitation of patients with incomplete spinal cord injury – observed benefits during gait studies, 207
Antibiotics
Eradication of urinary tract infection following spinal cord injury, 645
Methicillin-resistant *Staphylococcus aureus* (MRSA) colonization in patients with spinal cord injury, 639
Atypical syndromes, Caudal to the injury site in patients following spinal cord injury. A clinical, neurophysiological and MRI study, 751

Bone formation
Achondroplasia and spinal cord lesion. Three case reports, 375
Association between deep venous thrombosis and heterotopic ossification in patients with acute traumatic spinal cord injury, 507
Indomethacin and disodium etidronate for the prevention of recurrence of heterotopic ossification after surgical resection. Two case reports, 513
Intravenous disodium etidronate therapy in spinal cord injured patients with heterotopic ossification, 660
Neurovascular complications of heterotopic ossification following spinal cord injury, 51
Persistent hypercoagulation associated with heterotopic ossification in patients with spinal cord injury long after injury has occurred, 653
Sonographic diagnosis of heterotopic bone formation in spinal injury patients, 40
Ultrasound in the early diagnosis of heterotopic ossification in patients with spinal injuries, 500
Book reviews, 136, 341, 546

Care
Assessing selfcare status in quadriplegia: comparison of the quadriplegia index of function (QIF) and the functional independence measure (FIM), 225
Functional Independence Measure (FIM): a comparative study of clinician and self ratings, 457
The lack of comprehensive care causing complications in patients with myelodysplasia, 102
Colonic disease, Colonic volvulus in the spinal cord injured patient, 393
Complications, And costs of management of acute spinal cord injury, 700
Costs, Complications and costs of management of acute spinal cord injury, 700
Cysticerosis, Spinal cysticerosis. Case report and review, 128

Drug therapy
Effects of cisapride on anorectal and vesicourethral function in spinal cord injured patients, 125
Errors and limitations of the multimodality checking methods of defective spinal intrathecal pump systems. Case report, 611
Indomethacin and disodium etidronate for the prevention of recurrence of heterotopic ossification after surgical resection. Two case reports, 513
Intracavernous papaverine for impotance in spinal cord injured patients, 675
Intrathecal baclofen: does tolerance occur?, 516
Intravenous disodium etidronate therapy in spinal cord injured patients with heterotopic ossification, 660
Methylprednisolone treatment of experimental spinal cord injury, 417
Preclinical trial of 4-aminopyridine in patients with chronic spinal cord injury, 216
Dysreflexia, autonomic, Evidence of autonomic dysreflexia during FES stimulation in individuals with spinal cord injuries, 593
Dysrhythmia, cardiac, Risk of cardiac dysrhythmias in chronic spinal cord injury patients, 571

Electric stimulation
Effect of high voltage pulsed galvanic stimulation on sacral transcutaneous oxygen tension levels in the spinal cord injured, 311
Electrical stimulation-assisted rowing exercise in

Dysreflexia, autonomic, Evidence of autonomic dysreflexia during FES stimulation in individuals with spinal cord injuries, 593
Dysrhythmia, cardiac, Risk of cardiac dysrhythmias in chronic spinal cord injury patients, 571

Electric stimulation
Effect of high voltage pulsed galvanic stimulation on sacral transcutaneous oxygen tension levels in the spinal cord injured, 311
Electrical stimulation-assisted rowing exercise in

spinal cord injured people. A pilot study, 534
Evidence of autonomic dysreflexia during FES stimulation in individuals with spinal cord injuries, 593
Functional electrical stimulation (FES): muscle histochemical analysis, 764
Limb blood flow, cardiac output and quadriceps muscle bulk following spinal cord injury and the effect of training for the Odstock FES standing system, 303
The role of FES in the rehabilitation of patients with incomplete spinal cord injury – observed benefits during gait studies, 207
Epidemiology, Traumatic spinal cord injuries in the rural region of Taiwan: an epidemiological study in Hualien county, 1986–1990, 398
Exercise
Electrical stimulation-assisted rowing exercise in spinal cord injured people. A pilot study, 534
Prediction of maximal aerobic power from a submaximal exercise test performed by paraplegics on a wheelchair ergometer, 584

Fever, Pyrexia in hospitalised spinal cord injury patients, 186
Follow-up studies, Spinal cord injuries in Iceland 1973–1989. A follow-up study, 68
Fractures
Complete dislocation with burst fracture of the lower cervical spine. Case report, 542
Conservative treatment of burst fractures of the thoracolumbar and lumbar spine, 58
Outcome after vertebral fractures with neurological lesion treated either surgically or conservatively in Spain, 358

Hereditary disease, Hereditary spastic paraplegia associated with epilepsy, mental retardation and hearing impairment, 408
Hydatid disease
MRI in the diagnosis of spinal hydatid cyst disease, 338
Sacrococcygeal hydatid cyst: another entity in the differential diagnosis of sacrococcygeal chordoma. Case report, 479
Hypocitraturia, Creatinine, calcium, citrate and acid-base in spinal cord injured patients, 742
Hypothermia, Effects of induced hypothermia on SEPs in patients with chronic spinal cord injury, 730

Intracranial pressure, Late-onset papilledema following spinal injury. Case report, 131

Magnetic resonance imaging (MRI)
Dynamics of MRI findings in patients with a spinal haematoma, 180
Implications of focal spinal cord lesions following trauma: evaluation with MRI, 160
MRI in the diagnosis of spinal hydatid cyst disease, 338
MRI evaluation of fusion mass incorporation after anterior cervical bony fusions: preliminary findings, 667
Meetings and Notices, 74, 140, 197, 271, 346, 416, 483, 551, 619, 686, 757, 808
Mortality, Factors contributing to the increased threat to life following spinal cord injury, 793
Muscles
Length–tension relationship of the posterior deltoid to triceps transfer in C6 tetraplegic patients, 33
Limb blood flow, cardiac output and quadriceps muscle bulk following spinal cord injury and the effect of training for the Odstock functional electrical stimulation standing system, 303
A review of some measurements of muscle wasting, tone and clonus in paraplegia, 75

National Health Service (NHS), Developments in the health service: the role of the Department of Health, 199
Neoplasms
Carcinoma of the scrotum associated with rubber urinals. Case report, 616
Extraspinal ependymoma presenting as a subcutaneous mass posterior to the sacrococcygeal region. Case report, 800
Factors related to the outcome of inpatient rehabilitation in patients with neoplastic epidural spinal cord compression, 367
Giant-cell tumour of the lumbar spine. Case report, 412
Spinal dural arteriovenous fistula adjacent to a spinal neurofibroma – a misleading co-existence. Case report, 678
Neurolathyrism, Clinical aspects of neurolathyrism in Unnao, India, 249
Neurological sequelae, Causes, sequelae and attempts at prevention of cervical spine injuries in Poland, 527
Neuropathic bladder
Bacterial biofilm formation on the bladder epithelium of spinal cord injured patients. II. Toxic outcome on cell viability, 494
Blockage of indwelling urinary catheters: the roles of urinary composition, the catheter, medication and diet, 234
Clean intermittent catheterisation – performing abilities, aversive experiences and distress, 288
Clean intermittent catheterisation for the neuropathic baldder, 380
Eradication of urinary tract infection following spinal cord injury, 645
28 K in squamous metaplasia of the bladder in

patients with spinal cord injury, 105
Morbidity due to lower urinary tract function in spinal cord injury, 320
Skin potential recordings during cystometry in spinal cord injured patients, 13
Teaching the procedure of clean intermittent catheterisation, 298
Neurophysiology
Physiological instability of the spinal cord following injury, 273
Spinal shock: possible role of receptor plasticity and non-synaptic transmission, 82
Nutrition, Meal-induced rise in resting energy expenditure in patients with complete cervical spinal cord lesions, 462

Obituaries, 269, 271, 482, 545
Oesophageal dysfunction, Oesophagitis and oesophageal motor abnormalities in patients with chronic spinal cord injuries, 384
Orthoses
A new double purpose device for elbow extension in tetraplegia with paralysis below C5, 116
Physiological benefits of paraplegic orthotically aided walking, 111

Pain
Chronic pain in the spinal cord injured: statistical approach and pharmacological treatment, 722
Two-point discrimination thresholds in spinal cord injured patients with dyesthetic pain, 485
Pathology, Pathology of cervical intervertebral disc injuries, 553
Pressure sores
A complicated trochanteric pressure sore: what is the best surgical management? Case report, 119
Continent urinary diversion and diverting colostomy in the therapy of non-healing pressure sores in paraplegic patients, 242
Effect of high voltage pulsed galvanic stimulation on sacral transcutaneous oxygen tension levels in the spinal cord injured, 311
Prostheses, Report on a conference on motor prostheses for workplace mobility of paraplegic patients in North America, 439
Psychological reactions, Anxiety and depression over the first year of spinal cord injury: a longitudinal study, 349

Quality adjusted life years (QALY), Tetraplegia and the justice of resource allocation, 143

Rehabilitation
Assistive technology in the rehabilitation of patients with high spinal cord lesions, 280
Haemoglobin and albumin as predictors of length of stay of spinal injured patients in a rehabilitation centre, 473
Interinstitutional agreement of individual functional independence measure (FIM) items measured at two sites on one sample of spinal cord injured patients, 622
Social support and health status in spinal cord injury, 632
Of spinal cord injured patients on long-term ventilation, 88
Respiration
Arterial oxygen saturation over time and sleep studies in quadriplegic patients, 172
Prediction of pulmonary function in wheelchair users, 560
Pulmonary obstruction in individuals with cervical spinal cord lesions unmasked by bronchodilator administration, 404
Rheumatoid factors (RF), Serum rheumatoid factors in spinal cord injury patients, 265

Sexual function
Effectiveness of vibratory stimulation in anejaculatory men with spinal cord injury. Review article, 689
In spinal cord injured men. I. Assessing sexual capability, 771
Intracavernous papaverine for impotence in spinal cord injured patients, 675
Simplified and objective assessment of spermatogenesis in spinal cord injured men by flow cytometry analysis, 785
Sperm quality assessed by flow cytometry and accessory sex gland function in spinal cord injured men after repeated vibration-induced ejaculation, 3
Trophic effects on the testes in paraplegics, 576
Sonography, Sonographic diagnosis of heterotopic bone formation in spinal injury patients, 40
Spasticity
Hereditary spastic paraplegia associated with epilepsy, 408
Relief of spasticity in spinal cord injured men and women using rectal probe, 715
Spina Bifida
Ambulation in patients with myelomeningocele: a study of 1500 patients, 28
Cervical spinal cord atrophy associated with spina bifida, 262
The chances of a spina bifida patient becoming continent/socially dry by conservative therapy, 22
Spinal cord compression, Synovial cyst of dens causing spinal cord compression. Case report, 803
Spinal cord injury
Prevention of spinal cord injury in an Australian study (New South Wales), 759
Red Cross spinal injury project in Bucharest,

Romania, 521
Spinal cord unit, Development of a spinal injuries unit in Armenia, 168

Thrombosis, deep vein
Association between deep venous thrombosis and heterotopic ossification in patients with acute traumatic spinal cord injury, 507
in spinal cord injured patients, 606
Treatment
The chances of a spina bifida patient becoming continent/socially dry by conservative therapy, 22
Conservative treatment of burst fractures of the thoracolumbar and lumbar spine, 58
Neurological outcome from conservative or surgical treatment of cervical spinal cord injured patients, 192

Ultrasound, Ultrasound in the early diagnosis of heterotopic ossification in patients with spinal injuries, 500

Ventilation
Experience with ventilator dependent patients, 150
The impact of home-based ventilator dependence on family life, 93
Inappropriate weaning and late-onset ventilatory failure of individuals with traumatic spinal cord injury, 430
Recommendations concerning the costing and management for patients requiring domiciliary ventilation, 276
Rehabilitation of spinal cord injured patients on long-term ventilation, 88
Southport experience with domiciliary ventilation, 154
The French organisation of mechanical ventilation at home for neuromuscular diseases, 147
The Swedish experience in the organisation of domiciliary ventilation for patients with a high spinal cord injury, 157
The Swedish modification of the tracheostomy tube to permit speech, 203
Ventilator dependence and high tetraplegia, 141

Wheelchairs
Paediatric wheelchair athletics: sports injuries and prevention, 330
Physical performance of elite wheelchair basketball players in armcranking ergometry and in selected wheeling tasks, 255
Prediction of maximal aerobic power from a submaximal exercise test performed by paraplegics on a wheelchair ergometer, 584
Prediction of pulmonary function in wheelchai users, 560
